

Aim:

To work with Google Drive

Algorithm:

Step1: To get started with Google Drive, the user must create or sign in to a Google account.

Step 2: Type *drive.google.com* into the browser or Click Drive in Google apps.

Step 3: My Drive will automatically appear, which can contain uploaded or synced files and folders.

Step 4: We can either upload files from computer or create files in Google Drive. When a user creates a file or folder, they become its *owner* by default.

Step5: The owner can control the level of visibility -- public or privately shared with specific Google accounts -- and transfer ownership to another user using Gmail addresses.

Step 6:After completing the work close the drive

OUTPUT

Result:

Thus the Google Drive was created and worked with various features.
